...a refreshing experience in Home Building and Remodeling!

Take a look at the possibilities! An old, dark 1980s kitchen; why settle? It's your home, your memories.

Honor & Integrity... A Foundation You Can Count On!™

After: A beautifully remodeled, functional kitchen

The kitchen area shown on the cover was dark, outdated, and cramped like most existing homes. We removed a load-bearing wall to let light in, and removed a half wall to open the space into the family room. We also added a built-in boot bench and an island, and updated the cabinets, countertops, and fixtures. Cabinet storage space and counter space was added opposite the island. Now the space is open, bright, and functional. For more pictures go to our website under Portfolio and click on [Winings Kitchen Remodel](#).
